* Revised from previously published data. Revisions to trade data based on Bureau of the Census, Historical Summary 1997-2001.

*Category includes reaction engines, other than turbojets--except missile and rocket--and their parts.

**Data previously included in "Space vehicles and parts."

no=number, mt=metric tons (thousands of kilograms)

NOTE: Totals do not correspond to SIC/NAICS-based trade statistics because of slightly broader coverage.

Details may not add to totals due to rounding.

Data shown for certain products are not comparable to data before 1989 due to category changes made under the Harmonized System.
